

## **DISTRICT 72 Immediate Past District Directors report**      January 2018

These are exciting times. After many years of delays, it is wonderful to have Pathways rolled out in District 72. What has surprised me is that many of the doubters and critics of Pathways have become strong advocates for this educational programme. Some special thanks need to go to Sarah, Toni, Celina and Dave Young for all the hours they have invested in Pathways to ensure such a smooth roll-out for the members.

The Division teams have been busy working on the realignments of the Divisions, and I encourage you to share your thoughts if you feel that they could be of benefit to those involved.

The Quintet has returned from Mid-Year Training, full of enthusiasm and new ideas on how to reach the District Mission. I look forward to these members sharing all the knowledge that they have gained.

Now is the time where we start to look for our successors, and I encourage you to put your hand up and be considered for a higher role. One of my greatest growth years was as an Area Director, and if you have never fulfilled this position, then ask your current Area Director for more information about this growth position.

It is a pleasure to be able to support the District Officers in their roles, and I am always available if anyone should have any concerns.
