

DISTRICT 72 Immediate Past District Directors report

April 2018

It is with mixed emotions that I write my last report to the District. The last few years as a District 72 Leader have been an incredible journey, and I thank you for all the support, guidance and encouragement that you have offered.

I have also enjoyed watching the growth of members, as they step up to the roles of Area Director, Division Director and other leadership roles. This is where we as Toastmasters, can often achieve the most growth.

It is encouraging to see the District in such a strong position with the number of new clubs being chartered. Well done to all those people who have been a part of these clubs being created.

These are exciting times as we split into two Districts. Of course, there will be some people that we miss seeing at our District Conferences, however, the two Districts are holding their conferences on different weekends, so I encourage you to attend both District conferences in the future, to ensure that these friendships are maintained.

Once again, thank you for all your support. It has been a pleasure serving you.
