

# Program Quality Director Report

23 January 2022

The role of the Programme Quality Director is to provide Quality training to our district and club officers.

Round two of club officer training is about to start, there are five sessions all online, will be great to see all club executive officers attend. (By the time we have our District Executive Committee meeting this round will have been completed – I hope I can report a good turnout).

In November the district officers had a very enjoyable training weekend packed with great information and learnings that can be taken forward into the continued journey in leadership both in and out of Toastmasters. The District is very privileged to have such an awesome team of District officers and it was such a pleasure to work through our work styles together to find out a lot about ourselves as well as our fellow colleagues.

Area Directors are starting their second round of club reports. We have asked for all reports to be completed by 31<sup>st</sup> March 2022. Great to see all reports for G1 already completed. Thank you.

Area Directors are also very busy with organizing and running Area Contests. As per the Districts vote, all Area and Division Contests are to be in person. At the time of writing this report the country has just moved to red alert, for us this means we continue with in person events, however everyone must have/show vaccine pass (or limited to 25 people) and venue needs to be big enough to have one metre spacing between everyone attending.

Division contests will be attended by either Glen, David or I as below: -

Division C, 12 March, Glen

Division J, 19 March, David

Division D, 26<sup>th</sup> March, Kathryn

Division E, 2 April, Glen

Division G, 9 April, Kathryn

At this time, we are still planning for the District Conference to be able to go ahead in person, (fingers crossed for a return to orange). Division contest winners will need to be able to attend the conference in person. The planning is going well for this Conference with amazing speakers and educational opportunities. We do have contingency plans to ensure the conference goes ahead in one form or another.

“Leadership and learning are indispensable to each other”

John F Kennedy
