

# Program Quality Director Report

10 June 2022

The role of the Programme Quality Director is to provide Quality training to our district and club officers. Along with planning and organizing the District Conference and all aspects of Contests.

In May this year District 72 ran a very successful fully online conference. I want to acknowledge both the teams that worked incredibly hard to make the conference so amazing. Firstly, the team that worked on putting together an in-person conference as this team did a huge amount of the ground work, particularly regarding the workshops. The team that then worked on making the conference fully online showed what a gift Covid and the consequential online forum has been in our Toastmaster journeys.

With regard to Training our District is incredibly lucky to have such talented people! I am very excited to introduce our new training team lead by the incredible Marie Fox and Karen Squires. I would also like to thank Helen Cartmell, Kath Cherrie and their amazing team for the wonderful work and energy that they have given to training over the last two years.

We have District Officer Training for 2022/23 at the Brentwood on 25<sup>th</sup> and 26<sup>th</sup> June and by the time that this meeting is held we will be in full swing for round one of Club Officer Training.
