

Immediate Past District Director Report

15/10/22

Not too much to report,

End of financial year reports for 2021/22 are 95% complete just awaiting 2021/22 FM sending the Physical receipts and Documentation over to World headquarters and then we will get our end of year certification from TI, this process has had multiple hold ups which is annoying, but we are almost done.

About to start the Review of the D72 procedures with the review committee to ensure they are current to how we now operate and are not in conflict with TI rules and protocols, hope to have this completed by December 2022.

I will start recruiting the DLC committee over the next month and then get busy organizing the dates and getting them published for potential candidates by the required deadlines.

David O'Brien

D72 Immediate Past District Director 2022-2023
